WORLD'S BIGGEST ROBOTICS CHAMPIONSHIP TECHNOXIAN

TECHNOXIAN ORBIT

Explore. Engage. Excel. In Every Orbit

A city-based franchise hub by TechnoXian, designed to engage students in robotics, AI, and emerging tech. It offers training, memberships, competitions, and innovation labs – creating a Launchpad for young minds to explore, learn, and innovate.

WWW.ABIRAWORLD.COM

ABOUT ORGANIZATION

Transforming India into a global hub for robotics and eSports, TechnoXian Orbit is dedicated to driving innovation and excellence. By offering cutting-edge DIY kits and championing international competitions, we aim to foster a thriving ecosystem of young engineers and eSports champions

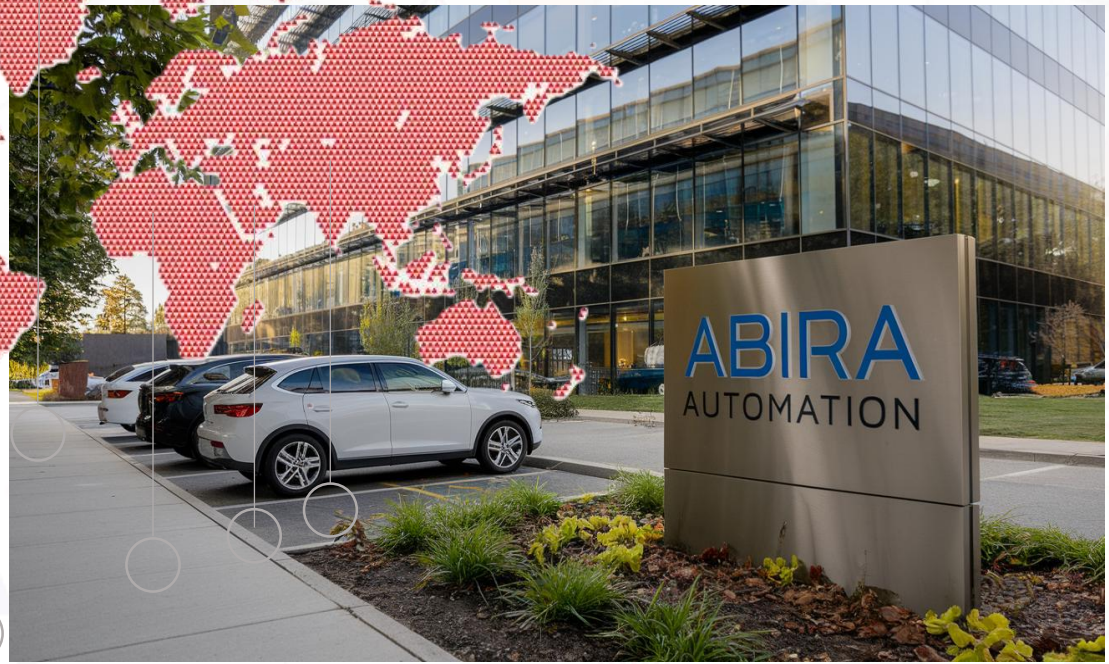
Introduction

INDIA'S GATEWAY TO GLOBAL ROBOTICS INNOVATION

TechnoXian Orbit is poised to transform robotics education across India. This dynamic franchise hub offers an exciting range of DIY robotics kits, drone kits, and autonomous bots offered by parent company Abira Automation. Featuring interactive Play Stations for skill-building and competition, along with a dedicated Pit Area for hands-on learning and innovation, TechnoXian Orbit is committed to nurturing the next generation of tech pioneers and global challengers.



LEADER'S LEGACY

Abira Automation is a pioneering company that empowers hobbyists, educators, and innovators to explore the world of robotics. With over a decade of experience in the field, Abira has developed a range of high-quality, customizable DIY robotic kits that make it easy for anyone to build and program their own robots.

Abira Automation's futuristic vision for robotics encompasses empowering individuals with accessible tools and resources to design, build, and program their own robots.

Through intuitive interfaces and modular components, enthusiasts can unleash their creativity, crafting robots tailored to their needs and preferences. With an emphasis on education and community collaboration, Abira fosters a culture of innovation where anyone can contribute to shaping the future of robotics, driving forward a DIY revolution in automation.

Organizing National / International Championships in Tech and eSports in various countries. Created platform for Indian young students to interact with international community.

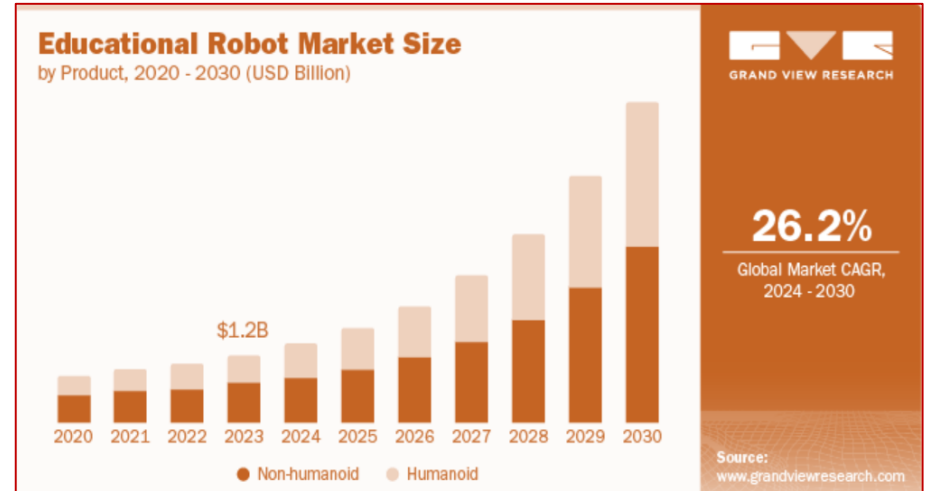
Spreading The Wings

MARKET SIZE AND GROWTH POTENTIAL

The global **educational robot market size** was valued at USD 1.18 billion in 2023 and is expected to grow at a CAGR of 26.2% from 2024 to 2030. The transformation of educational methodologies toward more experiential and interactive learning drives market growth.

India market is projected to grow rapidly in the coming years. As India continues to focus on improving its educational infrastructure, there is a significant push toward incorporating innovative teaching methods that cater to diverse learning needs. With the government's initiatives, such as Digital India and the New Education Policy (NEP) 2020 promoting the use of technology in classrooms, educational institutions are investing more in robotic tools to improve student outcomes and prepare them for future challenges. The expanding availability of these robots at more accessible price points and the increasing number of technology-oriented educational programs further fuel this growing demand in India.



First and Fast Mover Advantage in India. AbiraWorld leading the way in Indian Robotics Education Market

- Expanding Robotics Market
- Diverse Revenue Streams
- Innovative Experience
- Growing Hobbyist Community
- Global Reach
- Technology Integration
- Brand Loyalty
- Think Tank and Federations Partnership

Empowering Future Innovators Through Robotics

TARGET MARKET AND OPPORTUNITIES

DIY Enthusiasts

Our robotic kits cater to hobbyists and tinkerers who love building and customizing their own electronics. This growing segment is eager to explore the world of robotics.

STEM Education

Schools/colleges are increasingly integrating robotics into their curriculums. Our kits provide an engaging, hands-on way for students to learn programming, engineering, and problem-solving.

Robotics Startups

Entrepreneurs and small businesses require affordable, customizable solutions to prototype and develop their innovations. Our kits offer a flexible, cost-effective platform for these customers.

Transforming Robotics:
Largest Retail Innovator

PIONEERING LARGEST ROBOTICS CHAIN

AbiraWorld is pioneering the largest robotics franchise chain, revolutionizing robotics retail with a vast network of stores. By offering a wide range of innovative DIY robotics kits and educational resources, AbiraWorld aims to make cutting-edge technology accessible. This expansion is set to lead the market in robotics education and engagement.

Creating the World's Largest Robotics Retail Chain, Where Play and Learning Converge to Inspire and Empower Future Innovators Everywhere.

Innovative Designs

Our robotic kits feature cutting-edge designs that push the boundaries of DIY robotics, giving customers access to the latest technology.

Superior Quality

We use high-quality components and rigorous testing to ensure our kits are durable, reliable, and deliver exceptional performance.

Customizable Options

Our modular kits allow customers to personalize their robots, enabling them to create unique solutions tailored to their needs.

Comprehensive Support

We provide extensive documentation, tutorials, and customer support to guide users through the assembly and programming of their robotic creations.

Build, Learn, Innovate, Create, Excel

FUTURISTIC EDUCATIONAL DIY ROBOTICS & DRONE KITS

Wide Range of SKUs

Abira offers a diverse range of DIY robotics kits catering to various skill levels, from beginners to advanced enthusiasts.

Innovation

Abira is known for integrating cutting-edge technology into their kits, such as advanced sensors, microcontrollers, and wireless communication modules. Frequently update kits to include latest advancement in robotics & electronics

Educational Focus

Abira offers a diverse range of DIY robotics kits catering to various skill levels, from beginners to advanced enthusiasts.

Manufacturing

The manufacturing process for Abira kits involves high-quality materials and precision engineering, often utilizing automated assembly lines and rigorous quality control measures.

Ahead of Competitions

differentiate themselves through their range of innovative features, competitive pricing, and strong emphasis on educational content.

Community and Support

Abira fosters a community of robotics enthusiasts and provides support through forums, tutorials, and customer service.

Large Target Group, High Profit Sharing

FRANCHISE REVENUE STREAM

TECHNOXIAN

ORBIT

ENGAGE, PLAY, LEARN: ROBOTICS REVOLUTIONIZED BUSINESS MODEL

MEMBERSHIP

Drive student engagement, offer exclusive training, and host competitions with TechnoXian Membership at your franchise.

KIT SELLING

Sell Abira DIY kits to large target group including students, schools, and hobbyists, boosting hands-on tech learning

COMPETITIONS

Host district-level TechnoXian competitions to spark innovation and discover young tech talent locally and select teams for National / International Championships

BOOTCAMPS & WORKSHOPS

Opportunity to organize TechnoXian boot-camps and workshops, generating revenue through hands-on training and skill development programs

TechnoXian Orbit's business model integrates retail, interactive play, and educational training. This franchise model offers a wide range of robotics and drone kits, a play station for hands-on testing, and a training zone for skill development. Revenue is generated through product sales, play fees, and workshop registrations, ensuring diverse income streams.

Build, Learn, Innovate, Create, Excel

TECHNOXIAN CLUB MEMBERSHIP

TechnoXian Membership empowers students with exclusive access to advanced robotics training, workshops, competitions, and innovation labs. Franchisees are allocated rights to establish TechnoXian Clubs across 200-250 educational institutions, enabling them to enroll student members and earn royalties. Students gain hands-on experience, skill development, mentorship, and opportunities to compete at district, national, and global levels, fostering their growth as future technology leaders and innovators in the rapidly evolving tech landscape.

- ✓ FREE Instructor Led Trainings
- ✓ Access to Tech Community
- ✓ Participation opportunity in District/ National/ International Championships

Abira Automation offers a comprehensive line of DIY robotic kits that allow customers to build their own custom robots. These versatile kits include a wide range of modular components, sensors, motors, and microcontrollers to enable endless possibilities for creativity and innovation.

Our kits cater to hobbyists, educators, and aspiring engineers, providing the tools and guidance to bring robotic projects to life. With step-by-step instructions and online support, customers can easily assemble their dream robots from the ground up.

Collaborative Team, Clear Roles, Accountability

FRANCHISE TEAM STRUCTURE & OBLIGATIONS

The TechnoXian Orbit franchise team includes a Business Development Manager, sales staff, and no technical trainers. Franchisees are obligated to ensure operational compliance, maintain high customer service standards, and manage inventory and finances. Team members should possess retail and technical skills, with ongoing training provided to ensure brand consistency and excellence.

Abira HO would help in recruitment and arrange training/induction program for team

Empowering Success Through Comprehensive Support

MARKETING SUPPORT SYSTEM

TechnoXian Orbit provides franchisees with a robust support system, including comprehensive training, marketing resources, operational guidance, and technical assistance. Franchisees benefit from detailed operational manuals, ongoing education, and a collaborative network. This ensures effective setup, consistent performance, and sustained growth, empowering franchisees to succeed in the robotics retail market.

1 Marketing Promotion

We extensively engage target group on social media, with organic and promoted ads. Also drive traffic to local distribution points & skyrocket Abira DIY Kit sales!

2 Point-of-Sale (PoS)

Eye-catching POS materials are provided to associates for driving customer engagement & boost sales of Abira DIY Kits. Also participating in various exhibitions and promoting in Eye-catching area boost over all business of Abira DIYs!

3 Endorsement to India STEM Labs

Abira DIY kits are well accepted in India STEM Lab model which is established in various education institutions across India.

4 TechnoXian World Robotics Championship

We organize world's biggest robotics championship – TechnoXian in various counties supported by International Federation of eSports. Abira DIY kits are approved for the participation of youth in various challenges. This helps in acceptance of Abira DIY among target group.

COMPREHENSIVE TRAINING PROGRAM

Detailed sessions on product knowledge, sales techniques, and operational procedures.

Regular updates and advanced training on new products and technologies.

MARKETING AND BRANDING SUPPORT

Access to official branding materials, logos, and marketing collateral.

Assistance with local marketing strategies and promotional events

TECHNICAL SUPPORT

Access to technical help for troubleshooting and repairs. Receive comprehensive training and ongoing technical support to ensure your team is equipped to sell and support Abira's products effectively

SALES AND CUSTOMER SERVICE SUPPORT

Training for staff on customer interaction and service excellence.

Proven sales techniques and strategies to boost performance.

Invest Smartly, Succeed Greatly Together

REQUIREMENTS AND FINANCIAL CONSIDERATION

Prospective TechnoXian Orbit franchisees must meet financial criteria including substantial initial investment, net worth, and liquidity. They should have retail or business experience, ideally with an interest in robotics. Requirements include a suitable high-traffic location, adherence to brand standards, and commitment to operational excellence and customer satisfaction.

TECHNOXIAN ORBIT

1 Common Office/Hall including Reception

250 to 400 Sq. F total area

1-1 Saff Members
Manager & Telesales Agent

INVESTMENT PLAN FOR ORBIT

Equipment & Components	**INR 250,000**
Furnishing & Branding	INR 50,000
Transportation and Setup	INR 50,000
Association Fee	INR 250,000
Total Estimated Investment	**INR 600,000**

- **Business Experience:** Experience in retail/distribution management or business operations is preferred
- **Location:** Suitable space in a high-traffic area with sufficient square footage for retail, play, and training zones
- **Financial Requirement:** Sufficient capital to cover Franchise Fee, Office Setup, Inventory, and operational cost
- **Operational Capabilities:** Ability to manage daily operations and commitment to comply of HO's direction
- **Commitment:** A commitment to long-term growth and success. Dedication to providing exceptional customer experience and fostering a community

TECHNOXIAN ORBIT SIGNATURE

3 Separate Halls & Reception

2500 to 5000 Sq. F total area

1-3 Saff Members
Manager, BDM, Trainer

INVESTMENT PLAN FOR ORBIT SIGNATURE

Equipment & Components	**INR 10,00,000**
Furnishing & Branding	INR 11,00,000
Transportation and Setup	INR 100,000
Association Fee	INR 300,000
Total Estimated Investment	**INR 25,00,000**

Filling up “Expression of Interest” Form

Detailed information of the franchise to be provided in prescribed format.

Token of Confirmation

INR 2.50 Lakhs to be deposited along with Expression of Interest form.

Site Selection

Abira HO team will check all documents/ credentials. Post confirmation from HO, franchise can step further

Agreement Sign-off

Post verification, Abira Automation will do agreement sign off and balance License fee to be transferred by franchise on the date of sign off.

Efficient Setup, Strategic Implementation, Timely Launch

IMPLEMENTATION TIMELINE

The TechnoXian Orbit setup includes site selection, store design, and equipment installation, followed by staff recruitment and training. The timeline spans 7 days to 12 days, concluding with a grand opening event to launch the store and attract initial customers.
