SECTION 01

Brand Colors

Extracted directly from mechetron.com live CSS variables

PRIMARY PALETTE

Core Brand Blues

These are the official CSS variables defined in the site's stylesheet. Always use these exact hex values.

Brand Dark

#0355BC

--brand-dark

Primary blue, section backgrounds, footer

Brand Accent

#1DA5FA

--brand-accent

H2 headings, highlights, links

Deep Blue

#0056BE

--deep-blue

H3 headings, footer, deep sections

Light Blue

#1BA4FD

--light-blue

Hover states, glow, interactive

Nav Blue

#4F80FF

–

Nav links, anchor tags

Link Purple

#605BE5

–

Hyperlinks in body text

BACKGROUND SURFACES

Neutral Backgrounds

Text Dark

#0F1724

--text-dark

Dark hero sections, deepest bg

Page Light

#F9FBFD

–

Alternating content sections

Blue Tint

#F2F7FF

–

Code blocks, tag backgrounds

Pure White

#FFFFFF

–

Cards, modals, form areas

TEXT COLORS

Typography Colors

Body Text

#333333

Main body text on white/light bg

Muted

#5E6B7A

`--muted`

Captions, meta, subtext

Secondary Text

#777777

Placeholder, light descriptions

White Text

#FFFFFF

All text on dark/blue backgrounds

FEEDBACK & STATUS

Semantic Colors

Success

#00A651

Checkmarks, badges, success states

Amber

#FFB400

Star ratings, warnings, highlights

Alert Red

#E51919

Errors, urgent notices

Sky Blue

#BEE6FF

Info banners, light tags

GRADIENT

Official Brand Gradient

Brand Gradient

From Brand Dark → Brand Accent · Direction: 90°

`linear-gradient(90deg, #0355BC, #1DA5FA)`

Use on: CTA buttons, hero overlays, section banners, card borders, progress bars, and decorative dividers.

SHADOWS

Blue-Tinted Shadow Tokens

Shadows use the brand blue — this keeps shadows feeling on-brand rather than generic grey.

Shadow Small

`--shadow-small`

`0 6px 18px rgba(3, 85, 188, 0.14)`

Use on: cards, inputs, buttons

Shadow Large

`--shadow-large`

`0 18px 40px rgba(3, 85, 188, 0.18)`

Use on: hero cards, modals, featured

SECTION 02

Typography System

Three font families — each with a specific purpose

FONT STACK

Three Font Families

Pp

Poppins

H1, H2, H3 headings, logo text, section titles

Weights: 600, 700

Rr

Roboto

Body text, nav links, buttons, captions

Weights: 400, 500

Rh

Red Hat Display

Hero body paragraphs on dark sections

Weights: 400, 500

TYPE SCALE

Heading & Body Styles

Learn Robotics. Build the Future.

Style: **H1 Hero**
Font: **Poppins**
Size: **48–64px**
Weight: **700**
Color: **#0F1724 / #FFFFFF**
Line Height: **1.1**

Empowering Future Innovators

Style: **H2 Section**
Font: **Poppins**
Size: **36–60px**
Weight: **600**
Color: **#1DA5FA**
Line Height: **1.2 (66px)**

3D Printing — High Precision Fabrication

Style: **H3 Card Title**
Font: **Poppins**
Size: **18–20px**
Weight: **700**
Color: **#0056BE**
Line Height: **1.3**

Master the art of robotics, coding, and automation with our expert-led training programs.

Style: **Hero Body**
Font: **Red Hat Display**
Size: **25px**
Weight: **400**
Color: **#FFFFFF**
Line Height: **37.5px**

We believe education should be practical, engaging, and creative. That's why we teach Robotics, Arduino Programming, and Engineering Concepts through real-world projects.

Style: **Body Text**
Font: **Roboto**
Size: **16px**
Weight: **400**
Color: **#333333**
Line Height: **24px**

Home | About Us | Services | Trainings | Contact

Style: **Nav Link**
Font: **Roboto**
Size: **16px**
Weight: **500**
Color: **#4F80FF**

SECTION 03

Spacing & Layout

Grid, padding tokens, and section rhythm — as used on the live site

SPACING TOKENS

Padding Scale

XS
8px
Icon gaps, tight inline

SM
12px / 18px
Card inner gap (--gap)

MD
24px
Button padding, card padding

LG
30–50px
Section vertical padding

XL
100px
Hero / large sections

BORDER RADIUS

Corner Radius Tokens

Button
3px
CTA buttons, nav items

Small
8px
Tags, badges, chips

Card
16px (--card-radius)
All cards, modals, images

Pill
9999px
Avatar circles, toggles

MAX WIDTH

Layout Container

1240px

Max content width — `--max-width: 1240px`

Content area — max 1240px wide

SECTION 04

Buttons & Components

Button variants, states, and usage guidance

BUTTON VARIANTS

PRIMARY BUTTON SPECS

Font: Roboto 500
Size: 15px
Padding: 12px 24px
Border Radius: 3px
Background: gradient (#0355BC → #1DA5FA)
Text: #FFFFFF

WHEN TO USE EACH

Primary — Main CTA, 1 per section
Outline — Secondary action
Ghost — Tertiary / links
White — On dark/blue backgrounds

SECTION 05

Logo Usage Rules

Approved background combinations for the Mech-E-Tron logo

LOGO ON BACKGROUNDS

Approved Combinations

MECH-ε-TRON™

✓ On white — primary use

MECH-ε-TRON™

✓ On dark navy — approved

MECH-ε-TRON™

✓ On brand blue — approved

MECH-ε-TRON™

✓ On gradient — approved

✓ **DO**

✓ Use on white, navy, blue, or gradient backgrounds

✓ Maintain clear space equal to the logo height on all sides

✓ Use the PNG version with transparency for overlays

✓ Scale proportionally — never stretch

✗ DON'T

✗ Place on busy photo backgrounds without overlay

✗ Change the logo colors

✗ Add drop shadows or effects to the logo

✗ Use on yellow, red, or any non-brand color background

SECTION 06

Social Media Sizes

Optimal dimensions for every platform and post type — 2025 specs

INSTAGRAM

Feed Square	1080 × 1080
Feed Portrait	1080 × 1350

INSTAGRAM — COURSE PROMO

🤖 Want to build your own robot?

At Mech-E-Tron, we teach you **Robotics, Arduino, and Embedded Systems** through real hands-on projects — not just theory.

✅ 30+ projects with our Arduino UNO Learning Board
✅ Expert mentors guiding you every step
✅ Certificate on completion

Whether you're a student, hobbyist, or aspiring engineer — we've got a course for you.

📩 DM us "ROBOT" or click the link in bio to enroll!

FACEBOOK — EVENT / COMPETITION

🏆 Robotics Competition Alert!

Is your child ready to compete at the national level?

Mech-E-Tron is now accepting registrations for our competition preparation program. We provide:
🔹 Personalized mentorship
🔹 Team-based project training
🔹 Competition simulation & guidance

Don't miss this opportunity to showcase your talent on a national stage.

📞 Call us: +91 73879 96896

#RoboticsCompetition #Hyderabad #MechETron #AICRA #NationalRobotics

TWITTER / X — ENGAGEMENT

The best engineers don't just learn theory — they BUILD things. 🔧

Our students have built:
→ Line Follower Robots
→ Smart Home Systems
→ Custom Drones
→ Obstacle Avoidance Bots

What would YOU build first? Reply below 👇

LINKEDIN — BRAND AUTHORITY

India needs more engineers who can BUILD, not just memorize.

At Mech-E-Tron, we're solving this with practical STEM education — teaching Robotics, Arduino, IoT, and Drone Technology to students across Hyderabad and beyond.

In the past year, we've:
• Trained 2,500+ students
• Supported 300+ hands-on projects
• Won 50+ robotics competitions

• Delivered 2,000+ robotics kits

We're not just an ed-tech company — we're building the next generation of Indian innovators.

Interested in collaborating, sponsoring competitions, or bringing Mech-E-Tron to your school? Let's connect.

SECTION 09

Voice & Tone

How Mech-E-Tron speaks — the personality behind the brand

BRAND VOICE

Four Core Attributes

Inspiring

✓ "Turn curiosity into innovation"
✓ "Build the future, today"
✗ "Take our course"

Motivate students to see themselves as engineers and creators.

Practical

✓ "Learn by building"

✓ "30+ real projects"
✗ "Comprehensive curriculum"

Always tie claims back to tangible, hands-on outcomes.

Energetic

✓ Use emojis in social posts
✓ Short punchy sentences
✗ Long academic paragraphs

Match the excitement students feel when something works.

Inclusive

✓ "All skill levels welcome"
✓ "Beginners to engineers"
✗ "Advanced students only"

Never alienate newcomers. Every expert was once a beginner.

TAGLINES

Approved Brand Taglines

Learn Robotics. Build the Future.

Primary tagline — use on hero sections, banners, and primary CTAs

Empowering Future Innovators Through Robotics & Engineering

Extended tagline — use for About sections and LinkedIn bio

Building Innovators, One Robot at a Time

Social-friendly tagline — use for posts, stories, and captions

From Design to Flight — We Bring Your Ideas to Life

Services tagline — use for Drone / 3D Printing service sections

SECTION 10

Do's & Don'ts

Brand consistency rules for designers and content creators

DESIGN RULES

Visual Identity

✓ **DO**

- ✓ Use #0355BC and #1DA5FA as your primary brand colors
- ✓ Use Poppins for all headings (600 or 700 weight)
- ✓ Use the brand gradient on main CTA buttons
- ✓ Keep card border radius at 16px (--card-radius)
- ✓ Use blue-tinted shadows (rgba 3,85,188)
- ✓ Maintain max content width of 1240px
- ✓ Use #F2F7FF for light section backgrounds

✗ **DON'T**

- ✗ Use orange or red as a primary brand color
- ✗ Use fonts other than Poppins, Roboto, Red Hat Display
- ✗ Use generic grey drop shadows (#000 alpha)
- ✗ Change button border radius beyond 3–8px
- ✗ Use more than 2 font families on a single design
- ✗ Place dark text directly on the brand blue without checking contrast

CONTENT RULES

Messaging

✓ **DO**

- ✓ Lead with student outcomes ("You'll build X in Y days")
- ✓ Use specific numbers ("2,500+ students", "30+ projects")
- ✓ Include a clear single CTA per post
- ✓ Use 5–10 relevant hashtags on Instagram
- ✓ Mention Hyderabad / India for local relevance
- ✓ Reference DGCA, AICRA for credibility

✗ **DON'T**

- ✗ Use vague promises without evidence
- ✗ Use overly technical jargon in social posts
- ✗ Post without a call-to-action
- ✗ Use more than 30 hashtags (looks spammy)
- ✗ Misspell the brand name — it's "Mech-E-Tron" not "MechEtron"
- ✗ Use competitor brand names in posts

Quick Reference Card

COLORS

```
Primary: #0355BC
Accent: #1DA5FA
Dark: #0F1724
```

Text: #333333

Muted: #5E6B7A
